TRADE MISSION

Why Vietnam?

Vietnam is one of the leading markets in Asia and has one of the most vibrant economies in the region. Vietnam's economy has grown over 6% per year on a consistent basis, making it one of the top expanding economies in Southeast Asia.

Vietnam's safe environment, centralized location, strong economic growth, and existing bilateral agreement with the United States - all of these qualities provide the ideal climate for Colorado trade, investment, and other exchanges.

In 2016, Vietnam's exports totaled over US \$176b and imports totaled over US \$173b.

Vietnam focuses on innovation and growth in all sectors including technology, manufacturing, agriculture, tourism, and education. The country's growing population of almost 100 million people is young, educated, and dynamic.
